

How to Make Silky and Soft Hair? A Comprehensive Guide for Beginners

(<https://mamaearth.in/blog/how-to-make-hair-silky/>).

about search ad campaign objective :

Our goal is to increase the number of visitors to our website by utilizing search ads. By targeting relevant keywords related to our products and services, as we aim to attract customers who are actively searching for what we offer. This campaign focuses on brand visibility and generating more clicks to our website, to increased sales and conversions. Through strategic keyword selection and ad copy, we aim to maximize the effectiveness of our search advertising efforts and achieve measurable results.

keywords :

- I mamaearth hair oil
- II mamaearth onion hair oil
- III mamaearth hair fall shampoo
- IV mamaearth oil
- V mamaearth products

These keywords are choose for targeting potential customers interested in hair care products, specifically those from the brand Mamaearth. and this keywords are relevent.

To increase the quality score of low-performing keywords :

- **Keyword should be highly relevant to ad**
- **Landing Page should provides valuable and relevant content related to the keyword.**
- **add extensions, including sitelinks, callouts, and structured snippets, to make your ads more convincing**
- **evaluate your bidding strategy for the low-performing keywords.**

In Google Search ads, there are important metrics like :

Click-Through Rate (CTR): CTR is the ratio of clicks represented as a percentage. It measures how peoples who see your ad and click on it.

$$\text{CTR} = (\text{Clicks} / \text{Impressions}) * 100\%.$$

Clicks: the number of times people have chosen to visit your website or landing page by clicking on your advertisement.

Impressions: Impressions refer to the total number of times your ad shown on a search result page or other sites on the Google Network.

Cost Per Click (CPC): how much you pay on average each time someone clicks on your ad.

$$\text{CPC} = \text{Total Cost} / \text{Clicks}.$$

Bid adjustment for optimising your ad :

Device: your ad should be device friendly that You can show up better on different devices like smartphones, tablets, or computers.

Gender & Age: You can target your ads to specific age groups and genders.

Location: You can choose where your ads show up based on where your customers are located.

Ad Schedule: You can set the times and days your ads appear.

In Google Search ads, there are important metrics like :

Click-Through Rate (CTR): CTR measures the ratio of clicks to impressions. It's calculated by dividing the number of clicks by the number of impressions, then multiplying by 100 to get a percentage.

Clicks: Clicks represent the total number of times users clicked on your ad.

Impressions: Impressions refer to the total number of times your ad has been shown.

Cost Per Click (CPC): CPC is the average cost you pay for each click on your ad. It's calculated by dividing the total cost of your clicks by the total number of clicks.

Bid adjustment for optimising your ad :

Device: your ad should be device friendly that You can show up better on different devices like smartphones, tablets, or computers.

Gender & Age: You can target your ads to specific age groups and genders.

Location: You can choose where your ads show up based on where your customers are located.

Ad Schedule: You can set the times and days your ads appear.

To improve your CTR :

Refine Targeting: keep limited your audience targeting to reach people who are more likely to be interested in your website.

Optimize Landing Pages: make sure that the landing pages of your ads are optimized and relevance.

Review Ad Creatives: Check your ad visuals and messaging. make sure they are eye-catching, relevant.

Call-to-Action (CTA): is a clear instruction prompting the viewer to take a specific action

Three possible website for running display ads :

Google Ads (formerly Google AdWords):

Reason: Google Ads is one of the largest advertising platforms, reaching billions of users through Google Search, YouTube, and millions of websites in the Google Display Network. It offers robust targeting options, analytics, and flexibility in budget management.

Facebook Ads:

Reason: Facebook Ads allows targeting based on demographics, interests, and behaviors. It offers various ad formats, including image, video, and carousel ads, suitable for different campaign goals like brand awareness, engagement, or conversions.

Amazon Advertising:

Reason: If you're selling products, Amazon Advertising can be highly effective as it targets shoppers actively looking for products on the platform. With options like Sponsored Products, Sponsored Brands, and Sponsored Display, you can increase visibility and sales for your products.

Sitelinks are extra links you see under a main website link when you search on Google. They help you quickly find specific pages on a website, like hair oil and skin care which tel us something more about us

Callouts are short phrases or descriptions that appear with an ad or search result on platforms like Google. They highlight important information about a product or service, making it stand out to users.
